The BiPoint drum vending machine is an advanced distribution system for items of various sizes: from PPE and safety accessories to tools and small parts, even medicines. A rotating drum provides up to 702 independent locations. The possibility to customise width of the compartments and device configuration makes BiPoint a practical support for daily operations of the company.

The system can be expanded to include up to 15 integrated TEMREX vending machines of any type, making it an ideal solution for growing businesses.

- Full protection for up to 702 locations
- Consumption reduced by up to 50%
- User profile-based authorization
- Access by card / password / PIN
- Workplace accident reduction

- 99% resource availability
- 100% identification of additions, withdrawals, loans, and returns
- Automated work monitoring
