MODULO drawer vending machine allows for an automatic distribution of up to 2,160 products. It is perfect for small items that require strict distribution control, e.g. drills, milling cutters or blades.

A wide range of drawer segment configurations, simple and quick adjustment of compartment parameters, as well as functional software ensure fast, error-free access to resources and reports tailored to the Customer's needs.

- Full user identification
- wide range of drawer modules
- Authorization based on user profile
- up to 2160 locations
- Reduction of resource losses and misuse

- 99% resource availability
- 100% identification of additions, withdrawals, loans, and returns
- Uninterrupted access to the machine
- 3G / 4G / Wi-Fi router network integration
